

HRLine, formulated with an innovative binder base, is **highly efficient and very technical**.

It offers high polishing efficiency with **immediate mirror polished results and much easier cleaning**.

Free from animal fats, HRLine **limits allergic risks** and meets the **requirements for orthopedic and dental implants productions** but also for all **highly demanding markets**.

COSTS REDUCTION

Increased abrasive concentration, **reduces pastes consumption**

High speed of execution, **reduces labor costs**

EASY CLEANING

Cleaning time 4 to 6 times lower than for other pastes *

Dry pastes, **simplified degreasing**

HIGH PERFORMANCE

High quality abrasives, **immediate results**

High performance components, **mirror polish**

Free of animal fats, meets the **regulations of the medical environment**, limits the allergic risk

Discover LUXOR® Clean, **4 to 20 times more efficient** than other detergents on the market.
